## Comprehensive Claims Investigations

Conroy Simberg provides personalized service and attention to each of our clients. Communicating and keeping our clients informed at all stages of a case is paramount. Our lawyers promptly respond to client questions and take the time to learn about their unique concerns, needs and objectives. We also strive to provide our clients with timely reports and the information they need to make well-founded decisions in their case.

When handling liability cases, our firm assembles a team of skilled legal professionals led by an experienced partner who oversees all activities associated with the case. This legal team thoroughly reviews and investigates each claim in order to determine the cause of the accident, the parties at fault, the extent of any injuries sustained, and potential damage amounts.

When appropriate, our attorneys consult with industry experts who are skilled in analyzing and evaluating complex liability claims. Our legal professionals also carefully analyze the complex contractual relationships between the parties to identify any indemnification provisions which may shift liability away from our clients.

## Quick and Cost-Effective Service

Lengthy trials and courtroom battles not only impact our clients' finances and operations, but can also damage their reputation within the community. Our legal team strives to avoid litigation when appropriate by resolving liability claims through negotiation and other forms of alternative dispute resolution, including mediation and arbitration.

When a case cannot be settled in this manner and litigation becomes necessary, we are prepared to aggressively defend our clients at all stages of the litigation process. Our general liability and casualty attorneys are skilled trial lawyers with decades of experience defending clients before federal and state courts, including all levels of appeals. These attorneys work side by side with our clients to develop tactics and strategies aimed at limiting exposure while settling cases in the quickest and most cost-effective manner possible.
